

**Working Group on Southeast Asia in the German Society of Geography (Deutsche
Gesellschaft für Geographie)**

Annual Conference of the Working Group

03 – 05 May, 2019 in Vienna

Call for Papers

The upcoming 26th annual conference of the Working Group on Southeast Asia will be held at the Department of Geography and Regional Research at the University of Vienna from 03 to 05 May, 2019.

The topical **focus of the conference will be “Mobilities in Southeast Asia”**. We intend to use the first part of the conference for presentations and discussions which address the focal topic with regards to multiple forms of mobilities – people, resources, ideas, etc. – and its repercussions at different scalar levels. The second part of the conference will serve as a forum for presentations and discussions on other ongoing as well as finalized research projects.

We would like to encourage colleagues who are working on research projects in Southeast Asia to submit presentation abstracts for the focal session or the more general forum session of the conference. We will be particularly happy to receive presentation abstracts from early career researchers discussing the results of their ongoing or finalized MA or PhD theses. Research projects that are still in the planning phase can be submitted as posters but not as presentations.

The conference will be hosted by Prof. Dr. Patrick Sakdapolrak und Dr. Gunnar Stange from the Department of Geography and Regional Research at the University of Vienna. All details regarding organization, conference venue, and participation fees will be published on the working group’s website (www.suedostasien.uni-koeln.de) and will be announced via the working group’s mailing list in due time.

Please send your **presentation title and abstract** to Prof. Dr. Frauke Kraas (f.kraas@uni-koeln.de) or Prof. Dr. Javier Revilla Diez (j.revilladiez@uni-koeln.de), the working group’s speakers, both from the Geographisches Institut, Universität zu Köln, Albertus-Magnus-Platz, 50923 Köln, Germany, not later than **15 February, 2019**.
